Dear Distinguished Buddhist Scholars and Institutions,

As the networking headquarters of all sects of Buddhism in the world, the WBU Institution of Research and Development has the mission to collect the data of the world's Buddhist scholars and institutions. The collected data will be recruited and put in our webpage for the access of university members as well as other Buddhist scholars and institutions around the world.

If you are a Buddhist scholar or a Buddhist institution, you are welcome to join our global Buddhist community by filling our application form. After joining us, you will be in the network of Buddhist scholars and institutions. You will also be notified and/or invited to attend the academic activities of the WBU or the WBU associated centers around the world.

Enclosed please find the application forms for Buddhist scholar and institution.

I look forwards to welcoming you in our global Buddhist community.

Sincerely Yours,

Dr. Tavivat Puntarigivat  
Director
